SILNOVA®

Brings silver to light

SILNOVA®. The new silver alloy that keeps its light over time. Naturally.

Without any galvanic treatment, equal to a gold alloy, and 20 times longer than standard Sterling silver, SILNOVA® keeps being bright over time. Eye-catcher thanks to its unique color, white and very shiny, it is visibly different from any other silver in the market.

...what might be its secret ingredient?

SILNOVA®. 銀的新革命；長久的自然光澤。

不需要任何電鍍處理，媲美金合金，SILNOVA®能保持光亮的時間比一般銀合金的長20倍。耀眼奪目的她會持久擁有獨特的白度，與眾不同的光澤。

...究竟裡面有什麼神秘的成分？
